**DHANBAD**

Dhanbad Public School celebrated **World Water Day** on 22<sup>nd</sup> March 2021.

Water is one of the components of life. The rapid pace of irrigation growth, urbanisation & industrialization has put enormous stress on water resources. Cumulative impact of increase in use of this precious natural resource has led to water scarcity in many regions of the country.

It is necessary that this scarce resource is protected by effective and efficient management on sound scientific methodology for its sustainable development.

Hence, Dhanbad Public School organized an Online Drawing Competition & Rendition of Slogans on the importance of conserving water to sensitize the stake holders of the future about conserving the elixir of life-
